

NEXRAIL

. L E A S E

Fleet Coordinator

NEXRAIL is a Luxemburg-based full-service locomotive leasing company founded in 2021. The company has a pan-European focus and is rapidly moving from the start-up to the scale-up phase. The NEXRAIL concept was developed by industrial professionals that form the executive management team. The company is supported by Infravia Capital Partners. InfraVia is a leading independent private equity firm, specialized in infrastructure and technology investments. Since 2008, InfraVia has raised over EUR 10 billion of capital and invested in 35+ companies across 13 European countries.

NEXRAIL's mission is to transition the European locomotive market to a zero-emission future by developing innovative, sustainable locomotive solutions, such as battery and dual-mode traction. The company was launched with the acquisition of a sizable portfolio of leased locomotives from a tier-1 manufacturer. The acquisition was accompanied by a landmark new-build order for innovative, first-of-its-kind, hybrid locomotives. NEXRAIL has an outstanding order book of ca 80 locomotives, which means that the fleet will grow to 130+ locomotives in the next 18 months.

Therefore, NEXRAIL is developing its organization at all levels and is looking to strengthen its team with a fleet coordinator.

Job Description:

The Fleet Coordinator coordinates (i) allocation of locomotives to clients,(ii) the timely delivery of locomotives to maintenance workshops, and (iii) the proper administration and communication of fleet information to clients and internal stakeholders.

In more detail, this means that the fleet coordinator is responsible for

- Help the sales team make decisions on their commercial offering, based on the timing of available locomotives. Decide on (pre-) reservation and final assignment of locomotives to a client;
- Lead daily calls with the operational (ECM3) team to stay up-to-date with fleet issues and maintenance event timings, establish priorities, assign actions;
- Coordinate, together with the maintenance team, the implementation of large maintenance programs and other fleet actions (e.g. inspections or retrofits) that affect clients. Ensure optimal prioritization and communication with clients;
- Update the fleet overview and relevant administrative systems with the commercial terms of the transaction and ensure delivery of relevant transfer documents. Prepare and maintain accurate fleet information reports;
- Coordinate transportation actions, if needed.

Qualifications and Experience:

We are looking for an organized, cooperative, reliable and fun colleague with

- Excellent interpersonal and communication skills in English and German; other European languages (most notably French, Dutch and Italian) would be beneficial;
- Excellent planning and organizing skills;
- Proficiency with professional software tools, including Excel, Powerpoint and ERP systems;

Preferred:

- Relevant experience such as (i) rail logistics planning or (i) rail maintenance planning
- Experience with internal sales and legal contracts

The position is based in Rotterdam, the Netherlands
